

LIGHT BOXES & DYNAMIC DISPLAYS

North America Display believes in the power of visual communications.

Images capture the moments of a larger story: a story that places products and services into the context of people's lives, thus bringing into focus our needs, and what motivates us to act on them.

Under one roof in Beaverton, OR we specialize in accessible, personalized service along with large format dye sublimation printing.

We invite you to break through with more clarity, color and texture in unexpected designs, structures and venues.

Therefore, we invite you to engage and excite your customers.

We are North America Display Corporation.

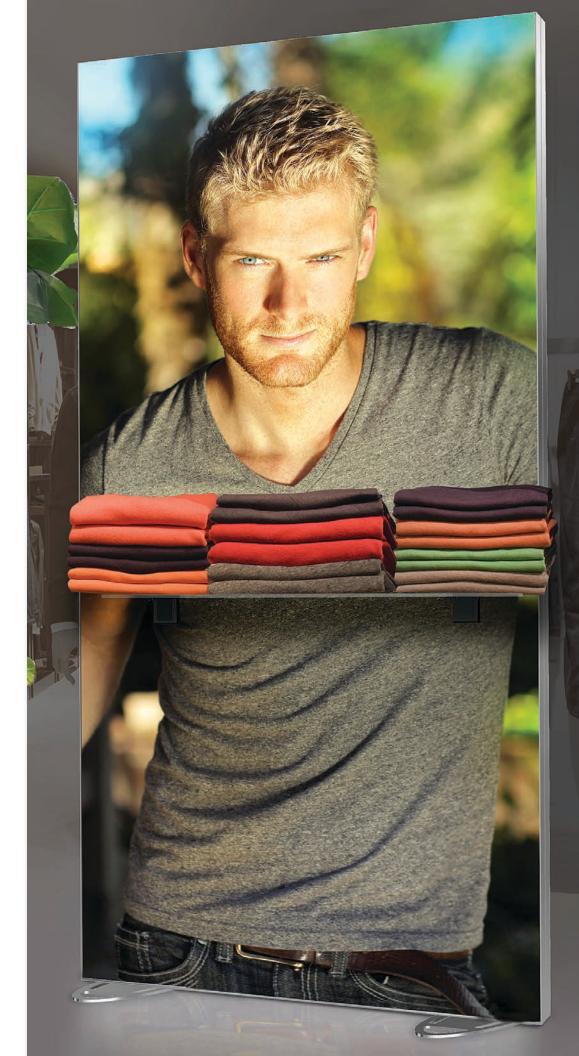

Large format sturdy aluminum light box frame with silver feet, dye-sublimation graphic, fabric backer, large shipping case with wheels.

FLOW-MOTION® REDEFINES THE DYNAMIC LIGHT BOX

Flow-Motion® takes the traditional light box into more interesting territory by integrating it with modern technology. By swapping out the classic stationary light for an array of addressable LEDs, the device makes it possible to animate once-static images in full color. The motion effect may prove particularly impactful on crowded show floors and in busy retail areas — Thanks to the fact that the high-quality dye-sublimation SEG graphics help the brilliant animations pop.

Lighting the graphic adds great contrast to your design.

FLOW-MOTION® brings the graphic to life even more

The animation is customizable to express movement.

HOW IT WORKS:

A portable array of pixel ladder lights is hung inside an SEG frame and covered with a static fabric graphic. The pixel lights are controlled via an integrated controller which is programed by simply inserting a SD card with the desired program into the controller. That's it! Once assembled everything is plug and play allowing for easy change of graphics or programs.
